## FLEXO & GRAVURE INKS

### Where Colour Becomes an Experience

At Colortone Inks & Coatings, we don't just manufacture inks—we shape how the world sees, feels, and remembers packaging.

From flexible packaging to advanced coating solutions, our inks have set new benchmarks in consistent coverage, rich depth, and flawless adhesion across India, Africa, and global markets.

**Backed by ISO 9001 certification**

- | State-of-the-art manufacturing facilities
- | Modern quality labs | Works across various substrates

## Where Innovation Becomes a Purpose

**Innovation at Colortone is not an initiative**—it's our driving force. From high-speed gravure and flexographic inks to non-toluene, non-ketone, and water-based inks, we engineer solutions that ensure optimal colour strength, coverage, and consistency—press after press.

We work closely with converters and printers, offering customised ink solutions, on-site support, and ongoing collaboration.

**COLORTONE**  
We INK your imagination!

## Where Beauty Becomes Brilliance

Our inks are created to celebrate the beauty of colours—delivering vibrant tones, smooth finishes, and refined gloss or matte effects that enhance shelf appeal and brand presence. Whether on **PET, BOPP, foil, paper, or specialty substrates**, Colortone inks bring clarity, brilliance, and character to every surface

We INK your imagination !

## Where Colours Become Emotions

Colour is not just visual—it's emotional.

It attracts, communicates, and elevates a brand long before words are read.

We believe true beauty isn't temporary—it's consistent, dependable, and enduring.
